

Project Design Phase-II

Solution Requirements (Functional & Non-functional)

Date	15 July 2026
Team ID	SWTID-2026-7507
Project Name	Darshan Ease
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Registration & Login	Register using Mobile Number + OTP Register using Email & Password Login via Aadhaar-linked OTP
FR-2	Temple & Slot Discovery	Search temples by name or location View available darshan slot timings View live queue / crowd status
FR-3	Darshan Slot Booking	Select date, time slot & number of pilgrims Generate QR-based e-pass on confirmation
FR-4	Payment & Donations	Pay darshan booking / VIP fee online Make online donation Order prasad for home delivery
FR-5	Notifications	Receive booking confirmation via SMS / Email Receive queue-turn alert Receive reminder before slot time
FR-6	Admin & Queue Management	Manage slot capacity & darshan schedule View booking & footfall analytics dashboard Scan & validate QR e-pass at temple entry

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	Simple, intuitive interface in Hindi, English & regional languages; usable on low-bandwidth mobile networks
NFR-2	Security	End-to-end encryption of personal & payment data; Aadhaar OTP-based identity verification; role-based access control
NFR-3	Reliability	99.9% booking uptime with automatic failover; prevents double-booking of the same slot
NFR-4	Performance	Slot booking confirmed within 3 seconds; supports 10,000+ concurrent users during major festivals
NFR-5	Availability	24/7 availability through multi-region cloud deployment with load balancing

NFR-6	Scalability	Auto-scaling microservices handle up to 50x traffic spikes during festival season
