

Project Design Phase

Solution Architecture

Date	15 July 2026
Team ID	SWTID-2026-7507
Project Name	DarshanEase - Temple Darshan Ticket Booking App
Maximum Marks	4 Marks

Solution Architecture Diagram: DarshanEase

Database Entity-Relationship (ER) Diagram: DarshanEase

Booking Workflow Diagram: DarshanEase

Key UI Screens: DarshanEase

Architecture Components:

Component	Technology / Description
Mobile App	Android & iOS app (Flutter/React Native) for devotees to search, book, and manage darshan slots
Web App	Responsive web portal for booking and temple admin management
API Gateway	Single entry point handling authentication, request routing, and rate limiting
Booking & Slot Service	Manages real-time slot inventory, reservations, and cancellations across temples
User & Profile Service	Handles devotee registration, ID verification, and profile management
Payment Service	Processes booking fees and donations via UPI, cards, and net banking
Notification Service	Sends SMS/email/push alerts for confirmations, reminders, and festival updates
Admin & Temple Management Service	Enables temple staff to configure slots, quotas, and view analytics
Database Layer	Separate stores for user, booking, and temple/slot data, with Redis caching for fast reads
External Integrations	Payment gateway, SMS/push provider, and government ID verification APIs
