

User Acceptance Testing (UAT) Template

Date	15 July 2026
Team ID	SWTID-2026-7507
Project Name	DarshanEase - Temple Darshan Ticket Booking App
Maximum Marks	4 Marks

Project Overview:

Project Name: DarshanEase - Temple Darshan Ticket Booking App

Project Description: DarshanEase is a mobile and web application that lets devotees reserve time slots and purchase tickets for darshan and various poojas at multiple temples online, replacing traditional queueing and on-site ticket counters with a real-time, transparent booking experience from home or on-the-go.

Project Version: v1.0.0 (Pilot Release)

Testing Period: 20 July 2026 to 03 August 2026

Testing Scope:

- Temple search and real-time darshan slot availability across multiple temples
 - Slot booking flow - date, pooja type, time slot, and number of devotees
 - Government ID (Aadhaar) verification during booking
 - Payment processing via UPI, debit/credit card, and net banking
 - QR-code e-ticket generation, download, and temple-entry scanning
 - Booking confirmation and reminder notifications via SMS/email/push
 - Special quota booking for elderly and differently-abled devotees
 - Multilingual interface switching
 - Booking cancellation and refund flow
 - Live queue status display and admin slot/quota configuration
-
- As a devotee, I want to search temples and view available slots so I can plan my visit in advance
 - As a devotee, I want to book a slot and receive a QR e-ticket so I can skip long queues at entry
 - As an elderly devotee, I want a special quota slot so I face less physical strain
 - As a devotee, I want a confirmation message so I have proof of my reservation
 - As a temple admin, I want to configure slots and quotas so I can manage devotee footfall

Testing Environment:

URL/Location: <https://staging.darshanease.app> (Web Staging) and DarshanEase Android/iOS staging build

Credentials: Devotee test account - testuser@darshanease.app / Test@1234; Temple Admin test account - admin@darshanease.app / Admin@1234

Test Cases:

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-001	Search for a temple and view available darshan slots	Open the DarshanEase app Search for a temple by name/city Select a visit date	List of available slots with pooja type and timings is displayed	Slots displayed correctly for the selected temple and date	Pass
TC-002	Book a darshan slot with valid devotee details	Select an available time slot Enter devotee details & ID proof Complete payment via UPI	Booking is confirmed and a QR e-ticket is generated	Booking confirmed; QR e-ticket generated and emailed	Pass
TC-003	Attempt to book a slot that is already fully booked	Select a slot showing 50/50 booked Tap Book Now	System blocks booking and suggests an alternate slot	Alternate slot suggestion shown as expected	Pass
TC-004	ID verification with an invalid government ID number	Enter an incorrectly formatted Aadhaar number Proceed to next step	System shows a validation error and blocks booking	Validation error displayed; booking blocked	Pass
TC-005	Payment failure during booking	Select a slot Initiate payment Simulate payment gateway failure	Booking remains unconfirmed and user is prompted to retry payment	User prompted to retry; slot held for 5 minutes	Pass
TC-006	Book a slot under the elderly/differently-abled quota	Enable 'Special Assistance' option Select a quota slot Complete booking	Booking confirmed under the reserved quota with priority entry marked on e-ticket	Booking confirmed; e-ticket marked 'Priority Entry'	Pass
TC-007	Switch app language to Tamil	Open Settings Select Language > Tamil Navigate to Payment screen	All screens, including Payment, are fully translated to Tamil	Home and Slot screens translated; Payment screen labels remained in English	Fail
TC-008	Generate QR e-ticket for a group booking of 5 devotees	Select a slot Add 5 devotees to the booking Complete payment Tap Download E-Ticket	A single QR e-ticket covering all 5 devotees is generated	E-ticket generation failed intermittently; had to retry twice	Fail

Bug Tracking:

Bug ID	Bug Description	Steps to Reproduce	Severity	Status	Additional Feedback
BG-001	QR e-ticket generation fails intermittently for group bookings of 5 or more devotees	Select a slot and add 5+ devotees Complete payment Tap Download E-Ticket	High	In Progress	Needs a fix before the festival-season booking rush
BG-002	Payment screen labels do not translate when app language is set to Tamil	Settings > Language > Tamil Navigate to Payment screen	Medium	Open	Only the Payment screen is affected; other screens translate correctly

Sign-off:

Tester Name: (To be filled and signed by the assigned QA tester upon UAT completion)

Date: (To be filled upon test completion)

Signature: (To be signed upon test completion)

Notes:

- Ensure that all test cases cover both positive and negative scenarios.
- Encourage testers to provide detailed feedback, including any suggestions for improvement.
- Bug tracking should include details such as severity, status, and steps to reproduce.
- Obtain sign-off from both the project manager and product owner before proceeding with deployment.
