Project Name	DarshanEase - Temple Darshan Ticket Booking App
Maximum Marks	2 Marks

Customer Problem Statement:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	a working professional and daily commuter	book a darshan slot for a festival day at a popular temple	the online slots get sold out within minutes of opening	there is no fair queue system or per-user ticket limit during high-demand bookings	frustrated and anxious about missing the darshan despite planning ahead
PS-2	an elderly devotee who is not comfortable with technology	book a darshan slot for myself and my family online	I find the booking steps confusing and hard to follow	the app does not offer a simplified, assisted, or voice-guided booking flow	helpless and dependent on younger family members for a simple task
PS-3	an out-of-town pilgrim planning a multi-day temple visit	check real-time darshan and seva slot availability in advance	I cannot find accurate, live-synced information across temples	the app does not integrate live temple counter data	uncertain and unable to plan my travel and accommodation confidently
PS-4	a devotee travelling with elderly parents or small children	find a booking option that avoids long queues and physical strain	there is no separate quota or express slot for special-needs visitors	the platform treats all devotees under a single general queue	worried about my family's comfort and safety during the visit
